

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: Lab 1 Part A — Uninformed Search Algorithms

Student Name: ____Janet Dankwah

Nortey_____

Student ID: _____23112028_____

GitHub Repository Link: _____

Date Submitted: _____5th June 2026_____

1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	yes
Estimated percentage of the work influenced by AI	70%
Did you attach evidence of AI use where applicable?	yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
ChatGPT	To understand the work to provide accurate answers to the lab exercise questions With the graphs, I did that in statistics with R Studio, so I just used ChatGPT to help me use python language in doing the same thing in vs code	Asked for explanations and assistance with NumPy calculations, Pandas data analysis, missing value handling, pivot tables, customer lifetime value (CLV) calculations, Git/GitHub commands, and visualisation techniques such as heatmaps, violin plots	Exercise 5 (Pandas analysis), Exercise 6 (visualisations), Exercise 7 (customer analysis and CLV), and Git/GitHub	Ran all code in Jupyter notebooks, tested outputs, corrected errors, interpreted results, modified some code and visualisations, and wrote the final analysis based on the generated results.

	I used AI to track my progress			

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type	Attached? (Yes, No, N/A)	File Name
AI-generated draft		
Prompt history	Yes but this prompt was for tracking my working. To know what I have done	main Janet Dankwah Nortey initial notebooks .gitignore README.md environment_test.py README Course: Introduction to Artificial Intelligence Name: Janet Dankwah Nortey This repository contains my intelligence course, including exercises, Google Colab acti Perfect! 🎉 Your screenshot shows that everything was pushed successfully to GitHub. I can see: ✓ README.md ✓ .gitignore ✓ environment_test.py ✓ notebooks/ folder ✓ Commit message: "Initial repository setup" ✓ Repository is on the main branch That means Exercise 2 is complete.

One small note

The lab says:

Repository must contain at least **2 meaningful commits**

Right now I can only see:

Initial repository setup

which is **1 commit**.

Later, we should make one more meaningful commit, for example when we add a new file to `python_basics.ipynb` or update the README. Then you'll satisfy the "2 meaningful commits" requirement.

Screensh ot of AI interactio n		Give me a history of m 🤖 Sikaa, if you're filling the AI declaration form, you don't need every single prompt word-for-word. The form is asking for a summary of the prompts or instructions you gave the AI. Based on our session, a reasonable prompt history would look like: 📝 • Explain NumPy array operations and help complete Exercise 4. • Show how to normalize a dataset using NumPy. • Explain and implement the normal equation for linear regression. • Help analyze student performance data using Pandas. • Explain missing value handling using group means and medians. • Show how to calculate averages, correlations, and pivot tables in Pandas. • Help create histograms, box plots, scatter plots, regression plots, heatmaps, and violin plots using Matplotlib and Seaborn. • Explain customer lifetime value (CLV) calculations and customer segmentation. • Help create visualizations and write an analysis for the customer dataset. • Troubleshoot Python, Pandas, and Jupyter Notebook errors. • Explain Git and GitHub commands for committing, pushing, and submitting the lab repository. • Explain database concepts such as keys, integrity constraints, WHERE vs HAVING, GROUP BY, and JOIN.

Revised version showing student input		

4. Student Declaration

I declare that:

Declaration Statement	Response (Yes/No)
The submitted work is my own work.	Yes

Any use of AI tools has been clearly declared in this form.	Yes
The prompts, instructions, and AI-generated outputs have been disclosed where applicable.	Yes
I reviewed, tested, edited, and improved any AI-generated content before submission.	Yes
My AI usage does not exceed 25% of the entire work.	Yes
I understand that undeclared or excessive AI use may be treated as academic misconduct.	Yes
